

DGA Capital Management LP — Privacy Policy

Last updated: 2026-06

Contact: Alec Mazo, General Partner, DGA Capital Management LP — alecmazo1@gmail.com

Who we are

DGA Capital Management LP is a single-family office. This application is a private, internal tool used by the General Partner to manage the family office's own and family-managed investment accounts. It is not offered to the public.

What data we collect

When you connect a financial account through Plaid, we receive investment account information: holdings, investment transactions, balances, account type, and a masked (last-4) account identifier. We do **not** receive or store your financial-institution login credentials — those are entered on the institution's own page during Plaid's secure login flow.

How we use it

Solely to display and analyze the family office's portfolio (positions, performance, and reporting) for the GP. We do not use it for advertising, profiling, or any purpose unrelated to managing these accounts.

How we share it

We do not sell your data and do not share it with third parties for their own use.

Data is processed only by our service providers acting on our behalf:

- **Plaid** — to retrieve account data you authorize.
- **Railway** — hosting and database (encrypted at rest; TLS in transit).

How we protect it

Encrypted in transit (TLS 1.2+) and at rest; Plaid access tokens are additionally encrypted at the application layer with a separately-held key. Access is restricted to the GP and protected by multi-factor authentication on production systems.

Consent

We collect and process data only with consent. You provide consent through Plaid's

connection flow when you link an account. For family-managed accounts, the GP holds authorization from the account owner to manage and process that account's data.

Retention & deletion

We retain account data only while the connection is active. You may disconnect an account at any time, which revokes access at Plaid and deletes the stored data for that connection. You may also request deletion by contacting us at the address above.

Your choices

You may withdraw consent and disconnect any linked account at any time, and request access to or deletion of your data by contacting the GP.

Changes

We will update this policy as needed and revise the "Last updated" date above.
